

Lifeline System: Vital Signs:

- Quick, safe transport to code site
- Simultaneous access by multiple code team members
- Self-contained vehicle, perfect for med/surg floors where vital equipment may not be readily available
- Clear, logical organization and identification for all types of supplies
- Convenience features include integrated backboard, gel bin and I.V. bins
- Advanced design polymer materials are rugged, durable, yet lightweight, rustproof and easy to clean
- Fully enclosed unit with visible security checks

Features included:

- Lightweight polymer and 32 mm tubular steel construction
- Ergonomically-placed handle insures maximum control
- Convertible castor system provides positive control in transit and swivel mode for easy positioning at code site
- Acrylic storage areas are designed for multi-person access
- Recessed top storage area provides quick access to first-line meds
- Flip-open bins provide secure storage for gloves, masks, etc.
- Smooth-sliding, ball bearing drawer slides provide full extension for complete access to drawer contents
- Lower storage area for bulk supplies
- Quick-release latch secures contents until needed
- Polyethylene body, drawers steering handle
- 127 mm (5") swivel castors with resilient rubber tires

Cart allows simultaneous access by multiple code team members
